Title: Changes in the delivery of support to member within the day facility since Covid-19.	People Involved in Making This Assessment: Sheila Hewitt, Daniel Cheesman	
Task or Process: To mitigate risks to members.	People at Risk: Members	
Date of next review: January 2021		

Hazard (hazard and description): Sanitising of Members personal mobility equipment		
Control Measures (existing): Devising this new form to undertake any relevant changes to each members' needs and underlying health issues after Covid-19.		
Further Control Measures Required:	Assigned To:	Due Date:
Staff will greet taxi and community support drivers in Paul's Place car park		16-9-20
Staff to instruct drivers to wait until they are asked by staff to leave	Staff	
Staff will ask members three questions relating to their health whilst in the car park	Staff	
Staff will take the members temperature in the car park. If reads as 38.7 or above staff will ask the member to return home in the taxi, they came in.	Staff	
If Members temperature is under 38.7 staff will ask the member to proceed into the day facility and wait by the pool table where the members hands, rollator, Zimmer frame, electric and manual wheelchairs will be sanitised by a different member of staff. Members who use a Zimmer or Rollator will be offered a chair to sit on, while their Zimmer or Rollator will be satanised by staff. Staff must	Staff	

<p>ensure the handles or wheels of their Zimmer or Rollator is <u>dry</u> before the member stands up to use it.</p>		
<p>Staff will remind members of the one-way system to enter and exit the building.</p> <p>Entrance is through the main black double doors</p> <p>Exit is through the skittle alley fire exit. The exit ramp must be pushed up to the right-hand side of the skittle alley exit against the wall, staff to supervise the members exit</p>	<p>Staff</p>
